Summary of Investment Objective

The Altrua Macro Fund applies a quant fundamental framework to construct a core macro asset portfolio which is combined with non-linear strategies in thematic opportunities and tail-risk hedging. Instruments traded in the fund are exchange-traded futures and options, exchange traded funds (ETFs), OTC forwards on underlying exposure to stock and sector indices, fixed income (bonds and short-term interest rates), foreign exchange as well as volatility indices. The fund may invest in money market instruments and highly rated sovereign T-bonds as a part of its cash management strategy.

Risk Information

Neither past performance nor simulated performance is an indicator or a guarantee of future performance. Estimates of future returns should not be construed as a guarantee of future performance. The value of shares in the Fund and income received from it can go down as well as up, and investors may not get back the full amount invested.

An investment decision may not constitute the sole basis for a decision to invest in the fund. Such a decision should be based on the information in the current prospectus, the Key Investor Information Document ("KIID"), and the most recently published annual and semi-annual reports which are available at www.coeliam.com and can be acquired directly and without any costs from Coeli.
