Summary of Investment Objective

The fund aims to achieve long-term absolute capital appreciation by providing exposure primarily to the energy sector which consist of oil, gas, coal and renewable energy. The strategy is long-short with a low net aiming to hedge out market risk. The fund aims to achieve exposure through long physical equities and/or synthetic positions and synthetic short positions. The fund aims to always be negatively exposed to the fossil fuel industry, classified by the Bloomberg Industry Classification Standard (BICS) as the Oil, Gas and Coal sub-sector of the energy sector.

Risk Information

Neither past performance nor simulated performance is an indicator or a guarantee of future performance. Estimates of future returns should not be construed as a guarantee of future performance. The value of shares in the Fund and income received from it can go down as well as up, and investors may not get back the full amount invested.

An investment decision may not constitute the sole basis for a decision to invest in the fund. Such a decision should be based on the information in the current prospectus, the Key Investor Information Document ("KIID"), and the most recently published annual and semi-annual reports which are available at www.coeli.com and can be acquired directly and without any costs from Coeli.
