

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-Fund, a sub-fund of Coeli SICAV I. It is not marketing material. The information is required by law to help you understand the nature and the risk of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

Multi Asset Fund, a sub-fund of Coeli SICAV I

Share Class: I (SEK)
ISIN: LU1973742684

Management Company:
Waystone Management Company (lux) S.A.

Objective & Investment Policy

Coeli Multi Asset is a hedge fund with investments in equities, fixed income, credit, currencies and commodities. The fund has a global focus and the fund manager has the possibility to invest in all developed markets. The fund operates a combination of systematic Equity Market Neutral and Global Macro alternative investment strategies that are divided into the categories Carry, Value, Momentum, Liquidity and Volatility.

The fund manager combines several alternative investment strategies with the purpose to deliver positive returns irrespective of if the markets are going up or down. The investment strategies have in general low correlation to the equity market as well as to each other. Investments can be made directly by purchasing physical holdings and/or indirectly by entering into financial derivative instruments. The fund uses derivatives extensively.

The financial derivatives instruments will be listed on any regulated market or traded over-the-counter such as: futures, forward contracts, options, swaps (including equity swaps,

swaps on index, total return swaps (TRS), interest rate swaps, credit default swaps (CDS), contracts for difference (CFD)).

The Sub-Fund is authorized to use such financial techniques and instruments i.e. for the purpose of hedging and/or efficient management of the portfolio.

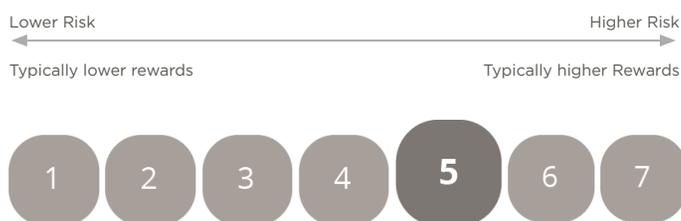

The Sub-Fund is managed actively without reference to any benchmark.

The Sub-Fund does not distribute dividends. All income is reinvested in the Sub-Fund.

The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days under the condition that the New York Stock Exchange is open. When the New York Stock Exchange is closed, no NAV will be calculated.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk & Reward Profile

About the indicator: The synthetic risk/reward indicator shows the relationship between risk and potential reward at an investment in the Sub-Fund. The synthetic indicator is based on the fluctuations in the Sub-Fund's value over the past five years. Where a full returns history is unavailable the indicator is based on relevant benchmark.

About the Sub-Fund: The Sub-Fund belongs to category 5. This means that the Sub-Fund is subject to medium risk in respect of rises and falls in value. Category 1 does not mean that the Sub-Fund is a risk-free investment. The Sub-Fund may over time shift to both the right and the left side of the scale. It is because the synthetic indicator is based on historical data which is not a guarantee for future risk/reward.

The Sub-Fund trades in OTC forwards and exchange traded futures. This is generally characterized by medium risk, but also

potentially high return. The synthetic indicator mainly reflects the rises and falls of the assets the Sub-Fund has invested in.

Risks not captured by the indicator - Investors in the Sub-Fund need to take the following risk factors into particular consideration:

Liquidity risk - There is a risk that the Sub-Fund may not be able to timely liquidate its holdings at a reasonable price.

Credit risk - The risk that an issuer or counterparty may not be able to meet its obligations to the Sub-Fund.

Derivatives - The value of financial derivative instruments can be volatile and may result in losses in excess of the amount invested by the Sub-Fund. The use of derivatives for hedging purposes may not be effective and can restrict potential gains.

Currency markets risk - The Sub-Fund is investing its assets in the international currency markets and is therefore exposed both to the increased opportunity and the increased risk of loss resulting from changes in exchange rates.

The above mentioned list of risk factors is not exhaustive. Other factors can influence the pricing of the underlying securities and therefore this Sub-Fund.

KEY INVESTOR INFORMATION

Charges for this Sub-Fund

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.
