

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this Sub-Fund, a sub-fund of Coeli SICAV I. It is not marketing material. The information is required by law to help you understand the nature and the risk of investing in this Sub-Fund. You are advised to read it so you can make an informed decision about whether to invest.

### Energy Transition Fund, a sub-fund of Coeli SICAV I

**Share Class:** R (USD)  
**ISIN:** LU2098350023

**Management Company:**  
MDO Management Company S.A.

### Objectives & Investment Policy

The investment objective of the Sub-Fund Coeli SICAV I – Energy Transition Fund is to seek long term absolute capital appreciation by providing exposure primarily to the energy sector which consist of oil, gas, coal and renewable energy. The strategy is long-short with a low net aiming to hedge out market risk.

The Sub-Fund aims to achieve exposure through long physical equities and/or synthetic positions and synthetic short positions.

The Sub-Fund aims to always be negatively exposed to the fossil fuel industry, classified by the Bloomberg Industry Classification Standard (BICS) as the Oil, Gas and Coal sub-sector of the energy sector.

The Sub-Fund is managed actively without reference to any benchmark.

The Sub-Fund is authorized to use such financial techniques and instruments i.e. for the purpose of hedging and/or efficient management of the portfolio.

The Sub-Fund does not distribute dividends. All income is reinvested in the fund.

The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days under the condition that the New York Stock Exchange is open. When the New York Stock Exchange is closed, no NAV will be calculated.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

### Risk & Reward Profile

**About the indicator:** The synthetic risk/reward indicator shows the relationship between risk and potential reward at an investment in the Sub-Fund. The synthetic indicator is based on the fluctuations in the Sub-Fund's value over the past five years. Where a full returns history is unavailable the annualized volatility that is consistent with the risk limit of the fund is considered.

**About the Sub-Fund:** The Sub-Fund belongs to category 4. This means that the Sub-Fund is subject to medium risk in respect of rises and falls in value. Category 1 does not mean that the Sub-Fund is a risk-free investment. The Sub-Fund may over time shift to both the right and the left side of the scale. It is because the synthetic indicator is based on historical data which is not a guarantee for future risk/reward.

The Sub-Fund trades in equities, equity swaps and derivatives. The strategy is long-short with a low net aiming to hedge out market risk. The Sub-Fund is targeting an annualized volatility of 5-10%, which implies a medium risk profile. The synthetic indicator mainly reflects the rises and falls of the assets the Sub-Fund has invested in.

**Risks not captured by the indicator** - Investors in the Sub-Fund need to take the following risk factors into particular consideration:

**Credit risk** - The Sub-Fund may invest a part of its assets in debt securities issued by governments or companies. The issuers of these debt securities may become insolvent which may result in the partial or full loss of the value of their debt securities.

**Currency markets risk** - The Sub-Fund is investing its assets in the international currency markets and is therefore exposed both to the increased opportunity and the increased risk of loss resulting from changes in exchange rates.

**Derivatives** - The value of financial derivative instruments can be volatile and may result in losses in excess of the amount invested by the Sub-Fund. The use of derivatives for hedging purposes may not be effective and can restrict potential gains.

**Liquidity risk** - There is a risk that the Sub-Fund may not be able to timely liquidate its holdings at a reasonable price.

The above mentioned list of risk factors is not exhaustive. Other factors can influence the pricing of the underlying securities and therefore this Sub-Fund.

## KEY INVESTOR INFORMATION

### Charges for this Sub-Fund

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.	
Charges taken from the Sub-Fund over a year	
Ongoing charges	1.7 %
Charges taken from the Sub-Fund under certain specific conditions	
Performance fee	20% of any net returns

The **entry** and **exit charges** shown are maximum charges. Information about actual charges can be found at your financial advisor or distributor.

**Ongoing charges** show the amount paid for management, administration, marketing and other costs of the Sub-Fund. Transaction costs are not included. The Sub-Fund was launched during August 2019 and the ongoing charges figure stated in the table is therefore an estimate of the costs that will be charged to the fund over the year. The charges are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing the Sub-Fund. These charges reduce the potential growth of the investment.

### Past Performance

This is a new Sub-Fund with insufficient data to provide a useful indication of past performance.

### Practical Information

◆ The depositary of the Sub-Fund is RBC Investor Services Bank S.A.
