Global Select Fund, a sub-fund of Coeli SICAV I

Share Class: R-D (SEK)
ISIN: LU1133292620

Management Company:
MDO Management Company S.A.

Objectives & Investment Policy

The investment objective of the Sub-Fund Coeli SICAV I - Global Select Fund is to create long-term capital growth by investing in a portfolio of normally 25-35 selected global equities. The aim is to outperform its benchmark, MSCI All Country World Daily Net Total Return Index.

The Sub-Fund is managed actively and uses the MSCI All Countries World Index to compare performances. The deviation of the portfolio composition of the Sub-Fund compared to the benchmark is significant.

The index is not a controlling factor for the Portfolio Managers of Coeli Global Select in their investments. The Sub-Fund can invest in any equity security regardless of market capitalization or place of registered office.

The Sub-Fund mainly invest in equities, but may also indirectly invest in equity linked securities within the UCITS regulations. The Sub-Fund may not invest more than 10% of its assets in units of other UCITS and/or UCIs.

You can buy and sell your shares daily on each business day of the Sub-Fund.

Shareholders will receive a fixed dividend of 4% per year. The dividend will be paid out annually.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk & Reward Profile

About the indicator: The synthetic risk/reward indicator shows the relationship between risk and potential reward at an investment in the Sub-Fund. The synthetic indicator is based on the fluctuations in the Sub-Fund's value over the past five years. Where a full returns history is unavailable the indicator is based on relevant benchmark.

About the Sub-Fund: The Sub-Fund belongs to category 5. This means that the Sub-Fund is subject to higher risk in respect of rises and falls in value. Category 1 does not mean that the Sub-Fund is a risk-free investment. The Sub-Fund may over time shift to both the right and the left side of the scale. It is because the synthetic indicator is based on historical data which is not a guarantee for future risk/reward.

The Sub-Fund invests in companies listed in markets which generally are characterized by high risk, but also potentially high return. The synthetic indicator mainly reflects the rises and falls of the equities the Sub-Fund has invested in.

Risks not captured by the indicator: Investors in the Sub-Fund need to take the following risk factors into particular consideration:

Liquidity risk -The risk that the Sub-Fund may not be able to timely liquidate its holdings at a reasonable price.

Counterparty risk - The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.

Markets risk - Investments in non-developed countries are exposed to certain risks such as political uncertainty, settlement risks, accounting standards risks, illiquidity of investments and sudden exchange rates movements.

The above mentioned list of risk factors is not exhaustive. Other factors can influence the pricing of the underlying securities and therefore this Sub-Fund.
