## What is this product?

### Type

This is an investment fund established as a Company With Variable Capital (SICAV).

### Objectives

Coeli SICAV I - Likviditetsstrategi aims to achieve a competitive return by investing primarily in fixed income or fixed income related instruments. The Sub-Fund aims to generate return from both interest income and from price increases in the securities in which the Sub-Fund invests.

**Investment policies** The Sub-Fund is a fixed income fund offering active management within fixed income securities issued by corporations, financial institutions and governments mainly domiciled or active in the Nordic region. The Sub-Fund has a wide investment mandate with the possibility to invest freely in various industries and countries in the region. The Sub-Fund can invest in fixed income instruments with high credit rating and with low or no credit rating.

The Sub-Fund applies an active management strategy which may include investments in government and municipal bonds, convertible bonds, covered bonds, inflation-linked bonds, money market instruments and deposit accounts with credit institutions.

A significant part, or all, of the Sub-Fund's capital may be invested in high yielding sub investment grade (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) and unrated securities. The Sub-Fund will only invest, at the time of acquisition, in fixed income securities which have an official credit rating B or above (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Up to 10% of the Sub-Fund's net assets may be invested in preferred stocks and other participation rights. Up to 10% of the Sub-Fund's net assets may be invested in exchange traded funds ("ETFs"), UCITS and other investment funds that in all material aspects comply with the Sub-Fund's investment strategy and investment restrictions. Investments in ETFs will be restricted to European ETFs. The Sub-Fund may invest up to 20% of its net assets in asset-backed securities and mortgage-backed securities. The Sub-Fund may also invest in covered bonds.

The average duration of the Sub-Fund's investments will be actively managed and will not exceed twelve months.

The Sub-Fund may invest in assets denominated in any currency. Exposure to non-SEK denominated debt securities may be hedged back into SEK through the use of instruments such as foreign exchange forward contracts. The Sub-Fund will bear the costs incurred by such currency hedging.

**Benchmark uses** The Sub-Fund is managed actively and uses the OMRX T-Bill Index as a universe to select securities from and to compare performances. The deviation of the portfolio composition of the Sub-Fund compared to the benchmark is significant.

**Redemption and Dealing** The Sub-Fund will be open for subscriptions and redemptions all official Luxembourg working days under the condition that the Swedish market is open. When the Swedish market is closed, no NAV will be calculated.

**Distribution Policy** The Sub-Fund does not distribute dividends. All income is reinvested in the Sub-Fund.

**Launch date** The Sub-Fund was launched on 16/02/2018. This share class was launched on 16/02/2018.

**Fund Currency** The reference currency of the Sub-Fund is SEK.

**Switching between Funds** Investors may switch their shares in the Sub-Fund for shares in another sub-fund within Coeli SICAV I. For further information, please refer to the prospectus which can be found on the Management Company website <https://funds.waystone.com/public> or contact your local Investor Servicing team on +46 8 506 22300.

### Intended retail investor

This product is intended for investors who plan to stay invested for at least 1 years and are prepared to take on a low level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

### Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone Management Company (Lux) S.A., is not entitled to terminate the product unilaterally.

### Practical information

**Depository** CACEIS Investor Services Bank S.A.

**Further information** Additional information about the Sub-Fund can be obtained from the Coeli SICAV I, such as the prospectus and latest annual reports (and half-yearly reports). These documents are available free of charge in English at the Management Company website <https://funds.waystone.com/public>. The NAV is calculated each day and is published at <https://coeli.com>.

## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 31 March 2019 and 31 March 2020.

**Moderate:** this type of scenario occurred for an investment between 31 May 2018 and 31 May 2019.

## What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Fund default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario,
- 100,000 SEK is invested.

Example Investment 100,000 SEK	if you exit after 1 year (recommended holding period)
<b>Total Costs</b>	<b>990 SEK</b>
<b>Annual cost impact*</b>	<b>1.0%</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.0% before costs and 1.0% after costs.

### Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
<b>Entry costs</b>	<b>0.00%</b> , we do not charge an entry fee.	<b>0 SEK</b>
<b>Exit costs</b>	<b>0.00%</b> , we do not charge an exit fee for this product, but the person selling you the product may do so.	<b>0 SEK</b>
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	<b>0.25%</b> of the value of your investment per year. This is an estimate based on last year's actual costs.	<b>250 SEK</b>
<b>Transaction costs</b>	<b>0.47%</b> of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	<b>470 SEK</b>
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
<b>Performance fees</b>	<b>0.27%</b> The actual amount will vary depending on how well your investment performs. The aggregated cost above is an estimation.	<b>270 SEK</b>

### How long should I hold it and can I take money out early?
