## What is this product?

### Type

This is an investment fund established as a Company With Variable Capital (SICAV).

### Objectives

The sub-fund COELI SICAV II – NORHAMMAR PROPERTY L/S FUND is a long/short equity fund with an investment objective to achieve long term capital appreciation.

**Investment policies** The Sub-Fund is a hedge fund focused on the real estate industry. The Sub-Fund invests in financial instruments issued by construction companies, real estate companies, or real estate development companies, or in financial instruments with exposure to the aforementioned entities.

The Sub-Fund invests in equity and equity related instruments (including indirectly via derivatives) in companies where the Investment Manager believes there is significant potential for value appreciation. The Sub-Fund may also invest in equity indices.

The Sub-Fund will invest (directly or indirectly) in public companies listed on (i) regulated markets (including multilateral trading facility ("MTF")), (ii) another regulated market in a member state of the European Union, which operates regularly and is recognised and open to the public or (iii) an official listing on a stock exchange in a non-member state of the European Union or dealt in on another market in a non-member state of the European Union which is regulated, operates regularly and is recognised and open to the public.

The Sub-Fund may take long and short positions in equity and equity related instruments via financial derivative instruments. The Sub-Fund may enter into a wide range of financial derivatives instruments, listed on any regulated market or traded over-the-counter such as: equity futures, forward contracts, equity options, swaps (including equity swaps, swaps on index and contracts for difference (CFD)). Financial derivative instruments may be used for investment purposes, hedging and/or efficient management of the portfolio.

When the Investment Manager in its own discretion is of the opinion that the market is over-valued or cannot find attractive investments, the Sub-Fund's assets can be invested in fixed income instruments or deposits. Fixed income instruments or deposits can also be used as collateral for synthetic positions. The duration of holding of fixed income instruments or de-posits (other than for collateral purposes) will depend on the market circumstances. In case of extraordinary market circumstances, investments in fixed income instruments or deposits may exceed 50% of the net assets of the Sub-Fund, it being noted that such a situation should not however exceed a period of three months.

The Sub-Fund is fundamentally driven and is looking for companies across Europe which the Investment Manager believes has the potential to generate positive returns. There will

be a focus on companies located in the Nordic region (Sweden, Finland, Norway, Denmark and Iceland). Investments in such countries will not be below 50% of the Sub-Fund's direct and indirect equity exposure.

The Sub-Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Sub-Fund is provided in Part C of the Prospectus in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## What happens if Waystone Management Company (Lux) S.A. is unable to pay out?

The Management Company has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.
